

# Business Banking, Corporate & Commercial and Local Real Estate Tariff

**NatWest**  
International

This leaflet details the costs we charge you for running your business account. It tells you exactly what you have to pay – and when. And, since we want to see your business succeed, we also give you some tips on what you can do to reduce your transaction charges.

If you want to know the price of a service that we haven't included here, or if you have any questions about our charges, your usual contact at the Bank will be able to help.

## Coronavirus (Covid-19) support

As part of our commitment to supporting our customers who may be affected by the impact of Covid-19 we have removed all electronic payment charges for the next 12 months. This new tariff will apply from April 9th 2020 to April 8th 2021. We're monitoring the potential impact of Covid-19 for our customers to ensure we can support them appropriately through any period of disruption, if you have any questions or concerns please do speak to your usual contact at the bank. We're here to help.

## Free banking

If you are a charity or community organisation we'll offer you free banking.

**Charities and community organisations** – if you're a not for profit organisation and your annual credit turnover doesn't exceed £100,000 we'll offer you free banking on the Business Current Account. This means you won't be charged a service charge as long as your organisation remains eligible for free banking. We'll monitor your turnover regularly and if we identify that you've exceeded £100,000 in any 12 month period, we will contact you to tell you that you'll start to incur fees at the standard tariff listed for your everyday transactions.

Free banking means that you won't be charged for everyday transactions. Charges for unarranged overdrafts are not part of the free banking offer. We'll always give you at least 60 days' notice of the service charge tariff that will apply to your account before you start to incur charges.

Service Charge – charges for the day-to-day running of your account

<b>Inwards payments - Euro</b> (EUR payments received from a country within the EEA (available to all customers))		Free of charge

All tariffs are set in GBP but may be debited in the currency of the transaction.

## Guidance on how to reduce your transaction charges

### Paying money in

- Only pay money into your account when you really need to as you'll use fewer credits and therefore save money.
- Keep hold of cash you might need, if you can do so safely. This reduces your cash processing charges; but be sure to keep track of all the money that you receive and pay out.

### Withdrawing money

- It's cost-effective to keep withdrawals to a minimum, and to use a cash machine rather than cashing a sterling cheque issued by a UK bank or building society at a branch.

### Paying bills

- If you usually pay bills by cash or sterling cheque issued by a UK bank or building society, you'll find that it's cheaper to use Direct Debits, standing orders, telephone banking or online banking.

### Taking payments

- If your customers have a credit or debit card, you can use a point of sale terminal to accept payments from them.
- And if they make regular payments, you can ask them to pay by standing order. Both these options are cheaper than taking cheques.

### Banking online and Mobile banking

We also have a range of online and mobile banking services giving you control over your business finances 24/7. Online you can transfer money, pay bills and make domestic payments which may lower the cost of your transactions.

## Unarranged borrowing

If your account becomes overdrawn without our agreement or goes over the arranged limit, we charge interest (known as Unarranged Borrowing Rate) on the extra amount. The Unarranged Borrowing Rate is currently 15% per annum. All Unpaid Item and Paid Referral Fees will be accrued and charged in line with the charging periods detailed below.

### Unpaid Item Fee

An Unpaid Item Fee of £20 (subject to a maximum of £100 per month) will be payable if:

- you informally request an overdraft by issuing instructions for a withdrawal or other payment; and
- the payment cannot be met from the funds in your account or any unused arranged overdraft; and
- we decide in our discretion not to make the payment.

### Paid Referral Fee

A Paid Referral Fee of £20 (subject to a maximum of £100 per month, or £300 per quarter) will be payable if:

- you informally request an overdraft by issuing instructions for a withdrawal or other payment; and
- the payment cannot be met from the funds in your account or any unused arranged overdraft; and
- we decide in our discretion to make the payment so that an unarranged overdraft is created or increased.

We only charge one Paid Referral Fee per day even if more than one item is paid from your account on that day. The Paid Referral Fee is payable in addition to interest at the Unarranged Borrowing Rate.

## When you get charged

We determine the charging period in which a fee or charge is incurred as follows:

- for a fixed fee the charging period in which the fee or charge was in force;
- for all transaction types listed on pages 1 and 2 of this leaflet together with Paid Referral Fees, the charging period in which the transaction was paid or taken from your account;
- for an Unpaid Item Fee, the charging period in which we decide not to make the payment.

If you have to pay account charges, the charge will be debited from your account on the last business day of the month following the period of accrual, e.g. charges accrued in September will be debited on the last business day of October. The actual dates can be found at [natwestinternational.com](http://natwestinternational.com)

## Internet Banking

### NatWest International Online Banking

A simple and convenient internet banking service which means you can carry out all your day-to-day banking transactions, whether you're on the move, at home, or at work. You can make instant transfers between most of your own accounts, pay bills, check your up-to-the minute balances, see your statements online – and more. It's free to use although your Internet Service Provider may charge you for accessing the service.

### eQ

With so many different accounts and transactions, meeting your business requirements and clients' needs can prove a time-consuming challenge. That's why our experts focused on designing and delivering the perfect solution. The result is eQ: a powerful international banking platform specifically designed to meet the needs of business customers.

eQ is ideal for any business that regularly makes sterling and foreign payments or needs to manage and balance a number of accounts. From viewing and managing your accounts to performing and authorising payments in real time and a wide range of currencies, eQ offers you complete control of your transactions. Its clear design and on-screen tools allow you to transact quickly and easily throughout the world, without contacting branches or waiting for individuals to respond to your requests.

eQ users enjoy greater hands-on control of their balances and payments, which gives them more freedom to respond to the needs of their businesses.
